LIFESIZE DASH™

Free video conferencing room kit solution

Get more from your meeting rooms — and your investment.

Equip every meeting space and huddle room for video conferencing and empower your people to work together no matter where they are with Lifesize Dash, our free software-based video solution for room kits.

Supporting video, audio, and wireless screen sharing with intuitive touchscreen control, Lifesize Dash connects your choice of new or existing hardware with our industry-leading, cloud-based service to deliver a simple, scalable, and superior way to communicate and collaborate — and unprecedented cost savings.

Whether you are just getting started with video, expanding into additional rooms, or simply seeking a better way to meet, Lifesize Dash can help maximize your technology investment, your office real estate, and your team's productivity while meeting your unique needs for workplace collaboration.

Superior video conferencing

Meet face to face over our secure, global cloud network with best-in-class video, audio, and presentation quality

Flexible configuration

Compatible with Windows and Chromebox devices, Android and iOS tablets, and a variety of third-party peripherals

Intuitive touchscreen control

Search the directory, start or join a meeting, add participants, present content and more with the tap of a finger

Wireless screen sharing

Avoid complexity and clutter, eliminating excess cords, wires and dongles from your meeting rooms

No contracts or hidden costs

Save up to $1,000 per room, per year in licensing and fees compared to competing room kit solutions

Powerful, cloud-based capabilities

Connect users and teams with virtual meeting rooms, 25-way group video calls, and essential collaboration features

Calendar integration

Stay on schedule with real-time calendar sync and tap-to-join access to events that are upcoming or already in progress

Centralized management

Set up, configure, and monitor usage of all Lifesize Dash rooms associated with your account from one online location

Lifesize Dash™
