

Simple Scalable Video Conferencing

Sangoma Meet enables anyone to start a video conference of up to 50 video participants on any device they want. Collaborate with co-workers on projects, keep in touch with your whole family, share some face-time with your team or meet their family and pets and feel like you're there with them.

Just go to meet.sangoma.com and get started!

It's so simple – Create a Video Conference in Seconds!

Wherever you are in the world, open a browser, navigate to meet.sangoma.com and start your video chat!

- › Invite co-workers or family to your video conference by sharing a simple meeting link via email, text, Whatsapp or however you want
- › Chat with everyone or Direct Message a specific participant using emojis while on a video call
- › Invite people with audio-only phone support

Integrated with Your Google Calendar and Office 365 Coming Soon

Create a calendar meeting invitation, just like you would normally do, and have your Sangoma Meet invitation details automatically created, including meeting link and a list of worldwide phone numbers for attendees to use.

A handy Google Chrome Browser plugin helps make video conferencing easier too.

The Sangoma Meet service makes a great video conferencing experience possible because unlike many other video-conferencing solutions, Sangoma Meet sends audio and video directly to each person, without mixing them first, ensuring excellent video quality.

Screen-Sharing

Sangoma Meet is also a screen-sharing service too! Communicate more efficiently as you collaborate on projects or ideas.

- » Start a video call or a screen-share and switch with a click of a button

Mobile Friendly Coming Soon

Sangoma Meet works great with iOS and Android phones and tablets too. Just search for Sangoma Meet from the Apple Store or Google Play Store and download the free app.

- » Create a video conference or join one by simply clicking on a meeting link invitation

With the mobile app, you get similar features as if you were on a desktop computer, and you can even flip your screen to show everyone what you are seeing to share the experience together.

Quick and Simple

Create, join or invite someone to a video conference in seconds!

Scalable

Join up to 50 people in a single video conference.

Multi-Platform Support

Laptops, mobile phones and tablets, and anything with a browser with WiFi or cellular network support.

Secure

Fully encrypted ensuring your conversations are private.

Improve Remote Work Lifestyle

Feel as if you were sitting beside your co-workers and stay energized.

High-Definition

HD video combined with exceptional audio quality, thanks to the Opus Codec, provides an excellent conference experience.

Perfect for Team Meetings

Start a team video call and have full moderator privilege (kick, mute attendees or send them a private message).
